## Fall 2009 Seminar Schedule (Draft)

Date	Speaker and Seminar Title	Host
	<i>Templating Ordered Endohedral Fullerenes for Quantum Computing Applications</i>	
11-Sep	Ryan Kincer, Graduate Assistant and ASU Alum School of Polymer, Textile & Fiber Engineering Georgia Tech	Schwab
	<i>Affinity Capillary Electrophoresis Studies of Protein Interactions with Lipids, Calcium Ions, and DNA</i>	
18-Sep	Brian Cooper, Associate Professor Department of Chemistry University of North Carolina - Charlotte	Puckett
	<i>Marine Alkaloids as Structural Inspiration for the Design of Molecules with Anti-biofilm Properties</i>	
25-Sep	Christian Melander, Assistant Professor Department of Chemistry North Carolina State University	Allain
	<i>Macrocyclic Carbene Complexes - Towards Group Transfer Reactions</i>	
2-Oct	David Jenkins, Assistant Professor Department of Chemistry University of Tennessee	Ramey
	<i>To be announced.</i>	
9-Oct (Homecoming)	Christopher Kitchens, Assistant Professor Department of Chemical & Biomolecular Engineering Clemson University	Yoblinski
	<i>To be announced.</i>	
23-Oct	Deanna Pickel, Scientist Center for Nanophase Materials Sciences Oakridge National Laboratory	Babyak
	<i>Development of New Chemical Agents to Control the Mosquito</i>	
30-Oct	Paul Carlier, Professor Department of Chemistry Virginia Tech	Taubman
	<i>To be announced.</i>	
6-Nov	Wei You, Assistant Professor Department of Chemistry University of North Carolina - Chapel Hill	Wheeler
	<i>To be announced.</i>	
13-Nov	Craig Bayse, Associate Professor Department of Chemistry and Biochemistry Old Dominion	Hambourger
	<i>Modeling the Flow of Electrons and Signals in Biology</i>	
20-Nov	David Beratan, R.J. Reynolds Professor of Chemistry Department of Chemistry Duke University	Perry
